Educational Core Values

My educational background in Multimedia at Viso Mariakerke has nurtured my creative spirit and bolstered my interest in amalgamating various media forms. Currently, I am aiming for further immersion and specialization in New-Media Development at Arteveldehogeschool, where I am honing my technical skills. My educational journey has taught me to think in a multidisciplinary manner, work in a solution-oriented way, and always remain open to innovation and new challenges.

Skills & Expertise

- Strong collaboration skills with a proven ability to work effectively in teams.
- Creative thinking applied in both design and development.
- Willingness to continuously learn and grow, both inside and outside the classroom, and flexibility in investing personal time for professional development.

As a front-end developer with over five years of experience in HTML5, CSS, and JavaScript, my focus lies in creating responsive and engaging user interfaces. My background in UI/UX design enables me to provide solutions that are both functional and aesthetically refined. Moreover, my continuous pursuit of improvement helps me stay updated with the latest advancements in my field.
